Burlington Counterbalance Forklift Training

Burlington Counterbalance Forklift Training - Counterbalance Forklift Training courses are always in high demand. The Counterbalance forklift is a forklift which is made together with a weight that counters the balance, evenly distributing the weight of the load across the forklift arms. Counterbalance forklifts are designed so the weight behind the center of gravity is counterbalanced by the weight on the lift. The load is projected out from the equipment's front so it is visible to the operator of the forklift. This kind of forklift truck should only be utilized on prepared surface or on stable, level ground.

Forklift operators are required to acquire training which will enable them to better know the right or proper way across the forklift arms. The trainee would learn to properly raise and lower the load vertically and how to tilt the lift truck mast, moving the mast between 5 and 15 degrees both forwards and backwards. Trainees would be taught the RTITB standards needed for safely operating the forklift. Trainees will likewise become familiar with the kinds of attachments for the forklift arms.

Kinds of Counterbalance Forklifts:

Walkie Pallet Trucks
Walkie Pallet Truck is a counterbalance forklift suitable for getting into spaces that are cramped and small. This particular lift is highly maneuverable and can access virtually any tight spot.

Walkie Stackers
The Walkie Stacker is a different forklift which differs somewhat form the Walkie Pallet truck when it comes to its lift height. This machine is designed to access tighter spaces and has extra lift capabilities for high stacking. Neither of the Walkie line of lifts can be ridden. The operator has to walk behind them.

Rider Pallet Trucks
Rider Pallet Trucks are designed to be ridden. These riding lifts are great for dock loading and unloading.

Wave Work Assist Vehicle
The counterbalance forklift called the Wave Work Assist Vehicle can reach heights up to 17 feet.

Sit Down Counter Balanced Trucks
The Sit-down Counterbalance Forklift is made in four-wheel and three-wheel forklift designs. These tough and durable trucks are designed to be ridden.
