

Clark Forklift

Clark Forklift Forklift Training - Performing worldwide, there are at this time 350,000 Clark forklifts and lift trucks in operation, with upwards of 250,000 of those operating in North America. Clark has five major lines of forklifts across the globe, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 distinctive brands of lift trucks, with components covering more than 120,000 particular components for all of its automated equipment. Your regional Clark Dealer is your total source for availability of all your parts requirements offered by Clark Totalift.

Clark features a phenomenal Parts Distribution team. The parts warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Worldwide, Clark has one of the most amazing dealer support networks. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is now a standard feature on every lift truck.

Clark has a unrelenting mission to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its manufacturing plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental restrictions, thus placing them in a prevailing market position.

Resource Efficient Manufacturing

Clark has chosen the particularly economical and beneficial system of "Lean Production" for its assembly plants and application of resources. This structure was established to acknowledge the most efficient approaches of production facility stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Engine Design

Clark's product engineers and suppliers communicate together to perfect the effectiveness and excellence of their merchandise while minimizing costs. The new value engineering agenda combines innovative product growth and offers superior consumer support and service within the industry.
